

# Aravinth

## 1 Personal Data

FULL NAME: Sivalingam Panchadcharam Aravinth  
PLACE AND DATE OF BIRTH: Sri Lanka | 06 May 1987  
ADDRESS: Trautenaust. 10, 10717 Berlin, Germany  
PHONE: +49 176 31173663  
EMAIL: [me@aravinth.info](mailto:me@aravinth.info)

## 2 Work Experience

MAR 2016	Head of Engineering (Electronics & Full Stack)
OCT 2015	<i>Macsexperts, Bangalore</i> Research and development of Hydroponics/Aeroponics Vertical farming system for urban and commercial cultivation using <i>pH &amp; Electrical Conductivity sensors, Temperature &amp; Humidity sensors, Liquid level sensors, Irrigation and Nutrient management controllers, Peristaltic dosing pumps, Solenoid valves, Mistig Pumps, Servo Motors, Industrial Automation standards, Electronics circuit design, AVR Atmega 2560 Microcontroller, C++, Internet of Things, Raspberry Pi, NodeJS, AngularJS</i>
SEP 2015	Embedded System Engineer (Full Stack)
AUG 2015	<i>SmartB Energy Management GmbH, Berlin</i> Development of Embedded systems for Non-Intrusive Energy Monitoring System for Smart Buildings using <i>NILM Machine Learning, OMAP Processor, MityDSP, PLC Gateways, ARM Cortex, Linux Kernel development, C, Shell Script, Python</i>
JUN 2015	Electronics Engineer
MAY 2015	<i>Vivid Light Festival, Sydney</i> Research and development of an Electronic Art Installation using <i>300 meters of LED Neon Flex, LED Drivers of 2K Watts Power supply, Arduino, BCI Pulse Oximeter and Heartbeat Sensor, Power MOSFET STP16NF06L</i>
MAY 2015	Senior Software Engineer (Full Stack)
OCT 2014	<i>The Jodel Venture GmbH, Berlin</i> Development of Backend and Frontend web application, DevOperation, Data Analysis using <i>Javascript, NodeJS, MongoDB, Redis Cache, Mongo Cluster, ReactJS, Bootsrap, HTML, CSS, Amazon AWS, Ansible, ElasticSearch, Logstash, Kibana, New Relic</i>
SEP 2014	Embedded System Engineer (Electronics & Full Stack)
JAN 2013	<i>Yetu AG, Berlin</i> Development of Cloud infrastructure and SmartHome Gateway hardware for Internet of Things using <i>Z-Wave, OpenHAB, Smart Sensors, Freescale SBC, ARM, RaspberryPi, Smart Metering, Device Recognition Machine Learning Algorithm, Javascript, NodeJS, BackboneJS, MochaJS, Java</i>
JUL 2011	Senior Software Engineer
APR 2011	<i>Infosys Ltd, Mysore</i> Development of Vesels & Tanks management software, Data Analysis for British Petroleum - Alaska using <i>C#, .Net, WPF, Silverlight, Microsoft SQL, Sharepoint, Windows IIS, Visual Studio</i>
MAR 2011	Software Engineer
NOV 2009	<i>Academia Grandiosa Medicinae, New Delhi</i> Development of Interactive E-Learning application using <i>C#, C++, ASP.Net, MS SQL, HTML, CSS, Javascript, Windows IIS, Visual Studio</i>

OCT 2009	Software Engineer
OCT 2008	<b>Tata Consultancy Services, Hyderabad, New Delhi</b> Development of Call Data Records System for BSNL Telecom using C#, C++, ASP.Net, Windows IIS, Visual Studio
2008	Animator, Graphics and Web Designer
2003	<b>Freelance</b> Creation of Interactive Portfolios, Websites, Educational Animations, Logos, Banners, Posters using Adobe Photoshop, Adobe Illustrator, Flash, 3D Studio Max, Adobe AfterFx, Sound Forge, Dreamviewer, HTML, CSS

### 3 Education

2015	<b>Master of Science in ELECTRICAL ENGINEERING, Technical University of Berlin</b> <b>Courses :</b> Electromagnetic Field Theory, Electronics, Communication Networks and Technologies, Artificial Intelligence, Robotics, Machine Learning, Vehicle-To-Vehicle Communication for Autonomous Vehicle, Embedded Systems, Biometric Identification, Computer Security. <b>Thesis :</b> Gesture Recognition for Human-Robot Interaction: An approach based on skeletal points tracking using depth camera
2008	<b>Bachelor of Technology in ELECTRONICS AND COMMUNICATION ENGINEERING, SRM University, Chennai, India</b> <b>Courses :</b> Electronics, Analog & Digital Communication Technologies, Microcontrollers, Electrical Networks, Circuit Theory, Electromagnetic Field Theory, Signal Processing, Image Processing, Integrated Circuits, Control Systems, VLSI, Embedded Systems <b>Thesis :</b> GSM Cell Phone controlled Two Axes Robot with artificial intelligence for the detection of Fire, Temperature and Metal
2003	<b>Diploma in Graphics and Animation, ARENA Multimedia, Chennai, India</b> <b>Courses :</b> Graphic design, Web design, Illustration, Animation, Sound & Video Editing using Photoshop, HTML, CSS, Dreamviewer, illustrator, Flash, 3ds Max, Sound Forge, After FX

### 4 Projects

List of freelancing projects for private clients, academic research projects, new media art projects, Hackathon challenge and personal projects.

2015	<b>Gesture Recognition for Human-Robot Interaction: An approach based on skeletal points tracking using depth camera, Master Thesis, Distributed Artificial Intelligence Lab, Berlin, Germany</b> Gesture Recognition For Human-Robot Interaction with modelling, training, analysing and recognising gestures based on computer vision and machine learning techniques. <b>Technology:</b> HRI, Aldebaran NAO, Humanoid Robot, Depth Camera, AsusXtion, OpenNI2, NiTE2, Boost, UDP, WebSocket, ThreeJS, Matlab, C++, Javascript, Python, Gesture Recognition Toolkit, Adaptive Naive Bayes Classifier, Machine Learning, Robotics, 3D printing Link <a href="https://github.com/AravindhPanch/gesture-recognition-for-human-robot-interaction">https://github.com/AravindhPanch/gesture-recognition-for-human-robot-interaction</a>
2015	<b>Heart of The City, New Media Art Installation for VIVID Light Festival 2015, Sydney, Australia</b> The Heart of the City is an interactive public art sculpture that pulses light according to the heart beat of the people. The sculpture invites several people to sit and interactive with it. <b>Technology:</b> Heartbeat sensing, Pulse Oximeter, Arduino, LED Neon Flex, Circuit Design, Power MOSFET STP16NF06L

Link	<a href="http://www.anaisafranco.com/heartofthecity,heart-of-the-city">http://www.anaisafranco.com/heartofthecity,heart-of-the-city</a>	<a href="https://github.com/AravinthPanch/">https://github.com/AravinthPanch/</a>
2014	<b>Smart Green House, Research, Telecommunication Networks Group, TU Berlin, Germany</b> Smart Green House is a scalable plant monitoring system that helps us to monitor our plants and water them automatically. <b>Technology:</b> IEEE.802.15.4, WaspMote, XBee, Light Sensor TSL2561, Moisture Sensor Temperature-Humidity Sensor DHT11, NodeJS	
Link	<a href="https://github.com/AravinthPanch/smart-green-house">https://github.com/AravinthPanch/smart-green-house</a>	
2013	<b>RSSI based Indoor localization and Raw Ranging Data Visualization, Research, Telecommunication Networks Group, TU Berlin, Germany</b> Indoor localisation using RSSI. RSSI is received signal strength indicator in IEEE 802.11 beacon packet and beacon packets are transmitted periodically to announce the presence of WiFi. <b>Technology:</b> IEEE.802.11, Beacon Packet, RSSI, NodeJS, D3JS, Matlab, TWIST Testbed, Signal Jammer, WiSpy Spectrum Analyzer, Turtlebot, ROS, Javascript, Python	
Link	<a href="https://github.com/AravinthPanch/rssi">https://github.com/AravinthPanch/rssi</a>	
2008	<b>GSM Cell Phone controlled Two Axes Robot with artificial intelligence for the detection of Fire, Temperature and Metal, Bachelor Thesis, SRM University, Chennai, India</b> The objective is to control a Robot over a long terrestrial distance by using GSM Network instead of using other communication technologies which have shorter range. <b>Technology:</b> Two axis Robot, GSM cell phones with DTMF, DTMF receiver – UM92870, Sensors to detect temperature, fire and metal (IR LED, LDR, NTC), Micro Controller – 89c51, Buzzer	
2014	<b>Stereo Acoustic Light Emitter, Hackathon Challenge, Science Hackday Berlin 2014, Best Data Hack Award</b> It is an audio-visual system that makes use of spectral Tube and sensors to create a feedback system. <b>Technology:</b> spectral tube, OSC, MIDI synthesizer, Arduino, proximity sensor, infrared sensor, touch sensor, microphone, circuit board	
Link	<a href="https://github.com/AravinthPanch/stereo-acoustic-light-emitter">https://github.com/AravinthPanch/stereo-acoustic-light-emitter</a>	
2014	<b>Confusion, New Media Art Installation, Creative Code Jam, Berlin, Germany</b> Confusion is an emotional sculpture in the form of a head with two faces that talks with the spectator when someone touches it. <b>Technology:</b> Acrylic, Laser cutting, Plasma ball with Tesla coil, Current sensor, Arduino, MP3 shield, speakers	
Link	<a href="https://github.com/AravinthPanch/confusion-sensitive-sculpture">https://github.com/AravinthPanch/confusion-sensitive-sculpture</a> , <a href="http://www.anaisafranco.com/confusion">http://www.anaisafranco.com/confusion</a>	
2014	<b>Home DNS, Personal, Internet of Things</b> Home DNS is simple tool that will allow us to access our home LAN over internet. <b>Technology:</b> NodeJS, RaspberryPi, Cloud, Port forwarding	
Link	<a href="https://github.com/AravinthPanch/home-dns">https://github.com/AravinthPanch/home-dns</a>	
2014	<b>Yetu CAM, Research, Yetu AG, Berlin, Germany</b> Yetu CAM is a simple telepresence robot. A telepresence robot is a remote-controlled, wheeled device with a display to enable video chat and videoconferencing, among other purposes. <b>Technology:</b> Arduino Yun, 360 deg Servo Motor, MDF Laser Cut	
Link	<a href="https://github.com/AravinthPanch/yetu-cam">https://github.com/AravinthPanch/yetu-cam</a>	
2013	<b>StreeMuFi, Hackathon Challenge, Hack4Good, Berlin, Germany, Winner</b> Street Music Finder (StreeMuFi) is a project to help street musicians earn a living with their music. Here you can search for street musicians and ask them to play a gig at your event. <b>Technology:</b> PHP, Android, NodeJS, MySQL, GeekList	
Link	<a href="https://github.com/AravinthPanch/streemufi">https://github.com/AravinthPanch/streemufi</a>	

2013	<b>Autonomous Vehicle, Research, Daimler Center for Automotive Information Technology Innovations (DCAITI), Berlin, Germany</b> Vehicle-to-Vehicle Communication for autonomous vehicle to support Cooperative Adaptive Cruise Control (CACC) and Media Prefetching. <b>Technology:</b> Java, VSimRTI Simulation, Mercedes Benz, v2v, v2x
2014	<b>Academics-LMU, Freelance, Liaoning Medical University, Liaoning, China</b> E-Learning web application for medical students to attend various test series. <b>Technology:</b> Wordpress, WPLMS, PHP, My SQL Link <a href="http://academics-lmu.com">http://academics-lmu.com</a>
2013	<b>Shanti CRM, Freelance, Bevermann Telesalesfactory, Berlin, Germany</b> Customized CRM based on Microsoft Dynamics CRM to manage marketing campagne. <b>Technology:</b> Microsoft Dynamics CRM, SIP, Visual Studio, WPF, MVVM, Javascript
2007	<b>Steganography, Freelance, SRM University, Chennai, India</b> Steganography is the art or practice of concealing a file, message, image, or video within another file, message, image, or video. <b>Technology:</b> Visual Basic, Image Processing, RGB Link <a href="https://github.com/AravinthPanch/steganography">https://github.com/AravinthPanch/steganography</a>
2003	<b>Interactive Anatomy, Freelance, Moscow Medical Academy, Moscow, Russia</b> Interactive application for medical students to learn anatomy of human body. <b>Technology:</b> Flash, Sound Forge, Photoshop

## 5 Certifications and Test Scores

2009	CCNA - Cisco Certified Networking Administration
2010	EC-Council - Ethical Hacking
2010	IELTS - International English Language Testing System. <i>Score: 7.5/9</i>
2012	TestDAF - Test of German as Foreign Language. <i>Score: 16/20</i>

## 6 Award

2011	Erasmus Mundus Scholarship for outstanding students from Third-Countries to pursue higher education in Europe
------	---

## 7 Languages

	TAMIL:	Native proficiency
	ENGLISH:	Bilingual proficiency
	GERMAN:	Full professional proficiency
HINDI & URDU & MALAYALAM:		Limited working proficiency
	RUSSIAN:	Elementary proficiency

## 8 Skills

Programming languages:	C, C++, C#, Java, Javascript, Python, MATLAB, Unix Shell Script
Frameworks/Library:	.Net, WPF, Silverlight, Boost, NodeJS, BackboneJS, ReactJS, MochaJS, CSS, HTML, WebGL, Arduino, Processing, OpenCV
Database/Cache:	MS SQL, My SQL, Postgres, MongoDB, Redis Cache
IDE:	Vim, Visual Studio, Xcode, WebStorm, PyCharm
OS:	Embedded Linux, Linux, Android, OSX, Windows
Communication Protocol:	Z-Wave, ZigBee, IEEE 802.15.4, I2C, SPI, Bluetooth
DevOp & Monitoring:	Ansible, Chef, ElasticSearch, Logstash, Kibana
Robotics:	AI, Machine Learning, Computer Vision, ROS, Aldebaran NAO
Electronics:	Semiconductors, Microcontrollers, Circuit Design, PCB design, Digital and Analog sensors, Automation & Control Systems, Signal Processing
Fabrication:	3D printing, Sheet Metal fabrication, Laser Cutting, Welding
Media:	2D Animation, Flash, Photoshop, Illustrator, 3D modeling, Blender, Sketch Up

## 9 Interests and Activities

Research & Development, Open Source, Programming, Electronics, Robotics, Artificial Intelligence, Bionics, UAV, Machine Learning, Statistics, Data Visualization, Algorithms, Computer Vision, Image Processing, Internet Of Things, Wireless Technologies, Deep Security, Computer Networks, Physics, Mathematics, Quantum Mechanics, Creative Coding, Art, Painting, Graphic Design, Animation, 3D, Archery, Martial Arts, Agriculture, Sustainability, Languages, History, Making & Fabrication,

## 10 Contribution

FOUNDING MEMBER	<b>Sustainability Drinks Berlin</b> It is a series of regular get-together to promote an active sustainability movement in Berlin to create an awareness about the environment, energy conservation, health and hygiene. Link <a href="http://sustainabilitydrinks.de">http://sustainabilitydrinks.de</a>
TEAM MEMBER	<b>DAInamite Humanoid Robot Team, Robocup Standard Platform League</b> RoboCup is an international scientific initiative with the goal to advance the state of the art of intelligent robots. Link <a href="http://www.dainamite.de/en">http://www.dainamite.de/en</a>

# Cover Letter

In the year 1987, Aravinth was born in a beautiful coastal town in Sri Lanka. He was introduced to computer in 1992 by his father who is an Electrical Engineer and Architect. However, his interests in digital technologies pushed him to transform his artistic skills and gained a Diploma in Graphics and Animation while he was a teenager. Then he worked on Interactive Portfolios, Graphic Designs, Illustrations and Animations for various clients as a freelancer.

In the year 2004, he progressed to pursue Bachelor's Degree in Electronics and Communication Engineering, where he learned about Electronics, Analog and Digital Communication Technologies, Microcontrollers, Embedded Programming, Digital Signal Processing and Robotics. As a result, he built a Robot that can be controlled with GSM from anywhere in the world.

In the year 2011, he moved to Berlin to pursue Master's Degree in Electrical Engineering, where he has worked on various research projects of Deutsche Telekom T-Labs, Daimler Center for Automotive Information Technology Innovations (DCAITI), Distributed Artificial Intelligence Laboratory (DAI Labor) and Telecommunication Networks (TKN) Group. He gained greater knowledge of research methodologies from the projects in the field of Autonomous Vehicle, Vehicle-To-Vehicle Communication, Biometrics, Internet Of Things and Wireless Mesh Networks, Robotics, Computer Vision, Artificial Intelligence and Machine Learning.

Furthermore, he has been contributing to an association called Sustainability Drinks Berlin, which organizes regular get-together to promote an active sustainability movement in Berlin and Dainamite Robocup Team, which is a humanoid robot research group of DAI Labor.

Apart from that, he has been working with many corporations and startups as an Engineer to build anything from Enterprise Software to Embedded Hardware Systems. As a freelancer, he is been working on various Electronics, Software and Robotics projects for Private Clients, Academic Research, New Media Art Exhibitions and Hackathons.

His ambitions and interests are to work in creative innovation projects in the fields of Robotics, Automotive, Aviation, Automation, Media Art and Data science where he would play a role from the research till the fabrication of concept.
