

# Aravinth Panch

Aravinth stands at the intersection of social and tech entrepreneurship, where he co-founded multiple companies across Europe and Asia under the ecosystem of araCreate Group.

His technology ventures provide end-to-end support for turning ideas into market-ready products. These companies offer comprehensive services including engineering, manufacturing, media production, business development, training, and investment opportunities.

Meanwhile, his social enterprises focus on empowering underserved communities in the Global South through three key approaches: challenge-based learning, grassroots innovation, and impact venture building. These initiatives help communities create relevant solutions to their unique socio-economic and environmental challenges.
